

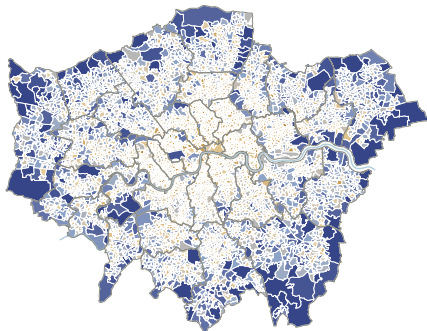

Figure 4A–D. Same city, different accessibility subjects

A–C use a shared 0–75 score scale to show within-range contrasts; values above 75 are darkest.

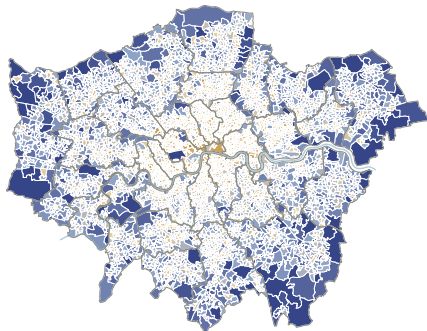

A. Children & Adolescents

Weighted service-basket score, WALK 15 scenario

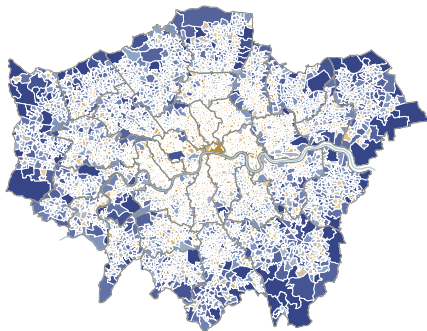

B. Caregiving Adults

Weighted service-basket score, WALK 15 scenario

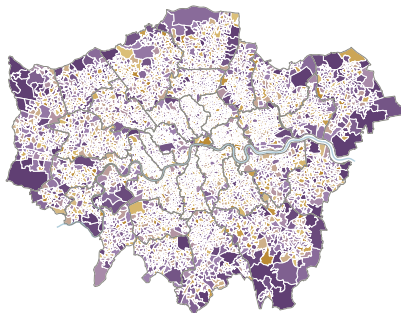

C. Older adults

Weighted service-basket score, WALK 15 scenario

D. Household sensitivity gap

Max-min score; not mismatch

Top
boroughs by
household
sensitivity
gap

Southwark	9.9
Tower Hamlets	9.9
Lewisham	9.6
Greenwich	9.3
Wandsworth	9.2
Lambeth	9.2
Barnet	9.1
Barking & Dagenham	9.1

Mean gap

D is the within-LSOA max-min score across the three household-weighted accessibility surfaces, not a need-access mismatch indicator.
